## 1 Core assumptions in digital transformation literature

In this Section, the core assumptions of Venkatraman in *The digital matrix: new rules for business transformation through technology* [7] and Westerman, Bonnet and McAfee in *Leading digital: Turning technology into business transformation* [6] are presented.

### Author of *The digital matrix*

Picture of Venkat Venkatraman<sup>1</sup>

Dr. Venkatraman holds a PhD from the University of Pittsburgh's (Katz Graduate School of Business, 1985). He specializes in the study of how established companies adapt to digital technologies. He published his knowledge in his book *The Digital Matrix: New Rules for Business Transformation through Technology* in 2017. [5, 6]

### Authors of *Leading digital*

Picture of George Westermann<sup>2</sup>

George Westerman is a Senior Lecturer at MIT Sloan School of Management and Founder of the Global Opportunity Initiative. He has written award-winning books and conducted research on digital transformation. [3, 7]

Picture of Didier Bonnet<sup>3</sup>

Dr. Didier Bonnet is specialized on digital transformation. He is a Professor at IMD Business School (Switzerland) and co-author of the book *Leading digital*. He is featured on broadcasts like the BBC or CNN. [1, 2, 7]

Picture of Andrew McAfee<sup>4</sup>

Andrew McAfee is a principal research scientist at MIT and co-founder of the MIT Initiative on the Digital Economy. He has written numeral books, including *Race Against the Machine*, *The Second Machine Age* and *Leading digital*. [4, 7]
